

## Post re-deployment from one office to another office

Execute t-code PO13

Enter the Post ID in "Post". Select Relationships (1001). Click create button.

The screenshot shows the SAP PO13 transaction interface. At the top, there are input fields for 'Plan version' (Current plan), 'Post' (30021898), and 'Abbr.' (PA). Below these are tabs for 'Acti...', 'Planned', 'Submitted', 'Approved', and 'Rejected'. The 'Planned' tab is active. On the left, a list of infotypes is shown, with 'Relationships (1001)' highlighted in orange. On the right, the 'Time period' section is visible, showing 'From' (21.09.2020) and 'to' (31.12.9999) dates, and several radio button options for selection. A 'Select.' button is located at the bottom of the time period section.

Enter the valid from date. End date has to be entered as 31.12.9999. Select relationship type as "A" and relationship as "003" (Belongs to). Select type of related object as "Office" and type the Office id in ID of related object column and click enter.

\*\*office id is available in zhr\_office\_details.

The screenshot shows the SAP PO13 transaction interface with the 'Relationships (1001)' details. The 'Post' field is PA, 'Planning Status' is Active, and 'Valid from' is 01.09.2020 to 31.12.9999. A 'Change Information' button is visible. Below, the 'Relationship type/relationship' is set to 'A 003 Belongs to'. The 'Related Object' section shows 'Type of related object' as Office, 'ID of related object' as 10182440, 'Abbreviation' as Uma div 1, and 'Name' as Umakanth division 1.

Then save the record. The Position id will be mapped to the new office id.
